INFORMATION CONCERNING FORWARD-LOOKING STATEMENTS

Certain statements regarding the expectations of Graphic Packaging Holding Company ("GPHC" and, together with its subsidiaries, the "Company"), including, but not limited to, pension plan contributions, the re-classification of gain from Accumulated Other Comprehensive Loss to earnings, the availability of U.S. federal income tax attributes to offset U.S. federal income taxes and the timing related to the Company's future U.S. federal income tax payments, capital investment, and depreciation and amortization in this report constitute "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995. Such statements are based on currently available operating, financial and competitive information and are subject to various risks and uncertainties that could cause actual results to differ materially from the Company's historical experience and its present expectations. These risks and uncertainties include, but are not limited to, the continuing effects of the COVID-19 pandemic on the Company's operations and business, inflation of and volatility in raw material and energy costs, changes in consumer buying habits and product preferences, competition with other paperboard manufacturers and converters, product substitution, the Company's ability to implement its business strategies, including strategic acquisitions, the Company's ability to successfully integrate acquisitions, productivity initiatives and cost reduction plans, the Company's ability to utilize its U.S. federal income tax attributes to offset taxable income or U.S. federal income taxes and those that impact the Company's ability to protect and use its intellectual property. Undue reliance should not be placed on such forward-looking statements, as such statements speak only as of the date on which they are made and the Company undertakes no obligation to update such statements, except as may be required by law. Additional information regarding these and other risks is contained in Part I, "Item 1A., Risk Factors" of the

NOTE 1 — GENERAL INFORMATION

Nature of Business

Graphic Packaging Holding Company ("GPHC" and, together with its subsidiaries, the "Company") is committed to providing consumer packaging that makes a world of difference. The Company is a leading provider of sustainable, fiber-based consumer packaging solutions for a wide variety of products to food, beverage, foodservice and other consumer products companies. The Company operates on a global basis, is one of the largest producers of folding cartons in the United States ("U.S.") and Europe, and holds leading market positions in coated-recycled paperboard ("CRB"), coated unbleached kraft paperboard ("CUK") and solid bleached sulfate paperboard ("SBS").

The Company's customers include many of the world's most widely recognized companies and brands with prominent market positions in beverage, food, foodservice, and other consumer products. The Company strives to provide its customers with innovative sustainable packaging solutions designed to deliver marketing and performance benefits at a competitive cost by capitalizing on its low-cost paperboard mills and converting plants, its proprietary carton and packaging designs, and its commitment to quality and service.

On January 1, 2018, GPHC, a Delaware corporation, International Paper Company, a New York corporation ("IP"), Graphic Packaging International Partners, LLC, a Delaware limited liability company formerly known as Gazelle Newco LLC and a wholly- owned subsidiary of the Company ("GPIP"), and Graphic Packaging International, LLC, a Delaware limited liability company formerly known as Graphic Packaging International, Inc. and a direct subsidiary of GPIP ("GPIL"), completed a series of transactions pursuant to an agreement dated October 23, 2017, among the foregoing parties (the "Transaction Agreement"). Pursuant to the Transaction Agreement (i) a wholly-owned subsidiary of the Company transferred its ownership interest in GPIL to GPIP; (ii) IP transferred its North America Consumer Packaging ("NACP") business to GPIP, which was then subsequently transferred to GPIL; (iii) GPIP issued membership interests to IP, and IP was admitted as a member of GPIP; and (iv) GPIL assumed certain indebtedness of IP (the "NACP Combination").

During 2020, GPIP purchased 32.5 million partnership units from IP for \$500 million in cash, fully redeeming the 18.2 million partnership units that were required to be redeemed in cash. On February 16, 2021, the Company announced that IP had notified the Company of its intent to exchange additional partnership units. Per an agreement between the parties, on February 19, 2021, GPIP purchased 9.3 million partnership units from IP for \$150 million in cash, and IP exchanged 15.3 million partnership units for an equivalent number of shares of GPHC common stock. On May 21, 2021, IP exchanged its remaining 22.8 million partnership units for an equivalent number of shares of GPHC common stock. As required by the parties' agreement, these shares were immediately sold by IP. As a result, IP has no ownership interest remaining in GPIP as of May 21, 2021.

The Company's Condensed Consolidated Financial Statements include all subsidiaries in which the Company has the ability to exercise direct or indirect control over operating and financial policies. Intercompany transactions and balances are eliminated in consolidation.

In the Company's opinion, the accompanying Condensed Consolidated Financial Statements contain all normal recurring adjustments necessary to state fairly the financial position, results of operations and cash flows for the interim periods. The Company's year-end Condensed Consolidated Balance Sheet data was derived from audited financial statements. The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with instructions to Form 10-Q and Rule 10-01 of Regulation S-X and do not include all the information required by accounting principles generally accepted in the United States of America ("U.S. GAAP") for complete financial statements. Therefore, these Condensed Consolidated Financial Statements should be read in conjunction with the Company's 2021 Annual Report on Form 10-K for the year ended December 31, 2021. In addition, the preparation of the Condensed Consolidated Financial Statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Condensed Consolidated Financial Statements and the reported amounts of revenues and expenses during the reporting period. Actual amounts could differ from those estimates and changes in these estimates are recorded when known.

Revenue Recognition

The Company has two primary activities, manufacturing and converting paperboard, from which it generates revenue from contracts with customers. Revenue is disaggregated primarily by geography and type of activity as further explained in "Note 10 - Segment Information." All reportable segments and the Australia and Pacific Rim operating segments recognize revenue under the same method, allocate transaction price using similar methods, and have similar economic factors impacting the uncertainty of revenue and related cash flows

Revenue is recognized on the Company's annual and multi-year supply contracts when the Company satisfies the performance obligation by transferring control over the product or service to a customer, which is generally based on shipping terms and passage of title under the point-in-time method of recognition. For the three months ended June 30, 2022 and 2021, the Company recognized \$2,353 million and \$1,731 million, respectively, of revenue from contracts with customers. For the six months ended June 30, 2022 and 2021, the Company recognized \$4,591 million and \$3,375 million, respectively, of revenue from contracts with customers.

The transaction price allocated to each performance obligation consists of the stand-alone selling price, estimates of rebates and other sales or contract renewal incentives, and cash discounts and sales returns ("Variable Consideration") and excludes sales tax. Estimates are made for Variable Consideration based on contract terms and historical experience of actual results and are applied to the performance obligations as they are satisfied. Purchases by the Company's principal customers are manufactured and shipped with minimal lead time, therefore performance obligations are generally satisfied shortly after manufacturing and shipment. The Company uses standard payment terms that are consistent with industry practice.

The Company's contract assets consist primarily of contract renewal incentive payments to customers which are amortized over the period in which performance obligations related to the contract renewal are satisfied. As of June 30, 2022 and December 31, 2021, contract assets were \$13 million and \$17 million, respectively. The Company's contract liabilities consist principally of rebates, and as of June 30, 2022 and December 31, 2021 were \$57 million and \$61 million, respectively.

Accounts Receivable and Allowances

Accounts receivable are stated at the amount owed by the customer, net of an allowance for estimated uncollectible accounts, returns and allowances, and cash discounts. The allowance for doubtful accounts is estimated based on historical experience, current economic conditions and the creditworthiness of customers. Receivables are charged to the allowance when determined to be no longer collectible.

The Company has entered into agreements to sell, on a revolving basis, certain trade accounts receivable to third party financial institutions. Transfers under these agreements meet the requirements to be accounted for as sales in accordance with the *Transfers and Servicing* topic of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification (the "Codification"). The loss on sale is not material and is included in Other Expense, Net line item on the Condensed Consolidated Statements of Operations. The following table summarizes the activity under these programs for the six months ended June 30, 2022 and 2021, respectively:

		nded	
		June 30,	
In millions		2022	2021
Receivables Sold and Derecognized	\$	1,520 \$	1,531
Proceeds Collected on Behalf of Financial Institutions		1,429	1,421
Net Proceeds Received From Financial Institutions		102	100
Deferred Purchase Price at June 30 ^(a)		8	11
Pledged Receivables at June 30		203	158

⁽a) Included in Other Current Assets on the Condensed Consolidated Balance Sheets and represents a beneficial interest in the receivables sold to the financial institutions, which is a Level 3 fair value measure.

Receivables sold under all programs subject to continuing involvement, which consists principally of collection services, were \$715 million and \$613 million as of June 30, 2022 and December 31, 2021, respectively.

The Company also participates in supply chain financing arrangements offered by certain customers that qualify for sale accounting in accordance with the Transfers and Servicing topic of the FASB Codification. For the six months ended June 30, 2022 and 2021, the Company sold receivables of \$35 million and \$249 million, respectively, related to these arrangements.

Share Repurchases and Dividends

On February 22, 2022 and May 24, 2022, the Company's board of directors declared a regular quarterly dividend of \$0.075 per share of common stock payable on April 5, 2022 and July 5, 2022 to shareholders of record as of March 15, 2022 and June 15, 2022 respectively.

On January 28, 2019, the Company's board of directors authorized a share repurchase program to allow the Company to purchase up to \$00 million of the Company's issued and outstanding shares of common stock through open market purchases, privately negotiated transactions and Rule 10b5-1 plans (the "2019 share repurchase program"). During the first six months of 2022, the Company repurchased 379,000 shares of its common stock at an average price of \$0.46 under the 2019 share repurchase program. During the six months ended June 30, 2021, the Company did not repurchase any shares of its common stock under the 2019 share repurchase program. As of June 30, 2022, the Company has \$139 million available for additional repurchases under the 2019 share repurchase program.

Business Combinations, Shutdown and Other Special Charges, and Exit Activities, Net

The following table summarizes the transactions recorded in Business Combinations, Shutdown and Other Special Charges, and Exit Activities, Net in the Condensed Consolidated Statements of Operations:

·	Three Months Ended June 30,			Sin	Six Months Ended June 30,		
In millions	2022		2021	2022			2021
Charges Associated with Business Combinations ^(a)	\$ 5	\$	23	\$	13	\$	23
Shutdown and Other Special Charges	1		7		2		15
Exit Activities ^(b)	4		4		10		8
Charges associated with a Divestiture(c)	92		_		92		_
Total	\$ 102	\$	34	\$	117	\$	46

(a) These costs relate to the Americanft Carton, Inc. and AR Packaging Group AB acquisitions.

(b) Relates to the Company's CRB mill and folding carton facility closures (see "Note 13 - Exit Activities").

(c) Relates to the Company's divesting of interests in Russia (see "Note 14 - Impairment and Divestiture of Russian Business").

2022

In the second quarter of 2022, the Company began the process of divesting its interests in its two carton folding plants in Russia. Impairment charges associated with this divestiture are included in the table above for the three months ended June 30, 2022. For more information, see "Note 14 - Impairment and Divestiture of Russian Business."

In March 2022, the Company announced its decision to close the Norwalk, Ohio folding carton facility, which it plans to close by the end of the third quarter of 2022. Severance charges associated with this project are included in Exit Activities in the table above for the three and six months ended June 30, 2022. For more information, see "Note 13 - Exit Activities."

2021

During 2019, the Company announced its plans to invest in a new CRB paper machine in Kalamazoo, Michigan. At the time of the announcement, the Company expected to close two of its smaller CRB Mills in 2022 in order to remain capacity neutral. During the third quarter of 2021, the Company decided to continue to operatene of the two original smaller CRB mills at least through 2022. In the second quarter of 2022, the Company closed the Battle Creek, MI CRB mill. Severance, retention, shutdown costs, and other charges associated with this project are included in Exit Activities in the table above for the three and six months ended June 30, 2022 and 2021. For more information, see "Note 13 - Exit Activities."

On May 14, 2021, in connection with the AR Packaging acquisition, the Company entered into deal contingent foreign exchange forward contracts, with no upfront cash cost, to hedge €700 million of the acquisition price. These forward contracts settled October 29, 2021 concurrently with the acquisition of AR Packaging and are accounted for as derivatives under ASC 815, Derivatives and Hedging. Unrealized gains and losses resulting from these contracts are recognized in earnings. Unrealized losses of \$17 million resulting from these contracts are recognized in Charges Associated with Business Combinations in the table above for the three and six months ended June 30, 2021. For more information, see "Note 1 - General Information" of the Company's 2021 Annual Report on Form 10-K for the year ended December 31, 2021 and "Note 7 — Financial Instruments and Fair Value Measurement."

Adoption of New Accounting Standards

In March 2020, the FASB issued ASU No. 2020-04, Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting This standard provides temporary optional expedients and exceptions for applying GAAP guidance on contract modifications and hedge accounting to ease the financial reporting burdens of the expected market transition from the LIBOR and other interbank offered rates to alternative reference rates, such as the Secured Overnight Financing Rate ("SOFR"). The ASU can be adopted after its issuance date through December 31, 2022. The Company adopted this standard in the first quarter of fiscal 2022 with no material impact on the Company's financial position and results of operations.

Accounting Standards Not Yet Adopted

In March 2022, the FASB issued ASU 2022-01, "Derivatives and Hedging (Topic 815): Fair Value Hedging – Portfolio Layer Method". This ASU expands and clarifies the portfolio layer method for fair value hedges of interest rate risk. This ASU is effective for fiscal years beginning after December 15, 2022, including interim periods therein, with early adoption permitted. The Company will continue evaluating the impact of this ASU.

In October 2021, the FASB issued ASU No. 2021-08, Business Combinations (Topic 805): Accounting for Acquired Contract Assets and Contract Liabilities Under the new guidance, the acquirer should determine what contract assets and/or contract liabilities it would have recorded under ASC 606 as of the acquisition date, as if the acquirer had entered into the original contract at the same date and on the same terms as the acquiree. The recognition and measurement of those contract assets and contract liabilities will likely be comparable to what the acquiree has recorded on its books under ASC 606 as of the acquisition date. ASU 2021-08 is effective for fiscal years beginning after December 15, 2022, including interim periods within those fiscal years. Early adoption is permitted, including in an interim period for which financial statements have not yet been issued. However, adoption in an interim period other than the first fiscal quarter requires an entity to apply the new guidance to all prior business combinations that have occurred since the beginning of the annual period in which the new guidance is adopted. The Company will continue evaluating the impact of this ASU.

NOTE 2 — INVENTORIES, NET

Inventories, Net by major class:

In millions	June 30, 2022	December 31, 2021
Finished Goods	\$ 537 \$	528
Work in Progress	217	194
Raw Materials	570	473
Supplies	209	192
Total	\$ 1,533 \$	1,387

NOTE 3 — BUSINESS COMBINATIONS

Americraft

On July 1, 2021, the Company acquired substantially all of the assets of Americant Carton Inc. ("Americant"). The Company paid approximately \$292 million, using existing cash and borrowings under its revolving credit facility. The acquisition included seven converting plants across the United States.

The purchase price for Americraft was allocated to assets acquired and liabilities assumed based on the fair values as of the acquisition date. Tangible assets and liabilities were valued as of the acquisition date using the indirect and direct methods of the cost approach and intangible assets were valued using a discounted cash flow analysis, which represents a Level 3 measurement. Management believes that the purchase price attributable to goodwill represents the benefits expected as the acquisition was made to continue to expand the Company's product offering, to integrate paperboard from the Company's mills and to further optimize the Company's supply chain footprint. The assigned goodwill, which is deductible for tax purposes, is reported within the Americas Paperboard Packaging reportable segment.

The purchase price allocation as of June 30, 2022 is as follows:

In millions	Amounts Re	cognized as of Acquisition Date N	Measurement Period Adjustments	Amounts Recognized as of Acquisition Date (as adjusted)
Purchase Price	\$	292 \$	_	\$ 292
Receivables, Net		22	_	22
Inventories, Net		37	(1)	36
Property, Plant and Equipment, Net		122	(28)	94
Intangible Assets, Net(a)		54	20	74
Other Assets		1	_	1
Total Assets Acquired		236	(9)	227
Current Liabilities		12	1	13
Total Liabilities Assumed		12	1	13
Net Assets Acquired		224	(10)	214
Goodwill		68	10	78
Total Estimated Fair Value of Net Assets Acquired	\$	292 \$	_	\$ 292

⁽a) Intangible Assets, Net, consists of Customer Relationships with a weighted average life of approximately 15 years.

During the second quarter of 2022, the Company finalized the acquisition accounting for America ft, which included valuation adjustments to Property, Plant and Equipment, Net and Intangibles Assets, Net.

AR Packaging

On November 1, 2021, the Company completed the acquisition of AR Packaging Group AB ("AR Packaging"), Europe's second largest producer of fiber-based consumer packaging, by acquiring all the AR Packaging Group AB shares that were issued and outstanding as of the date of acquisition. The acquisition included 30 converting plants in 13 countries and enhances the Company's global scale, innovation capabilities, and value proposition for customers throughout Europe and bordering regions.

The total cash consideration for the AR Packaging acquisition was \$1,412 million net of cash acquired of \$75 million, paid in Euros through the use of deal contingent, foreign exchange forward contracts, purchased through the use of available borrowing capacity on the Company's Senior Secured Revolving Credit Facilities and the \$400 million Incremental Facility Amendment to the Fourth Amended and Restated Credit Agreement. For more information, see "Note 4 - Debt."

The purchase price was allocated to the assets acquired and liabilities assumed based on the estimated fair values as of the date of acquisition. The excess of the purchase price over the fair value of the net assets acquired was allocated to goodwill, none of which is expected to be deductible for tax purposes, and will be reported within the Europe reportable segment. During the second quarter of 2022, the Company recorded acquisition accounting adjustments of \$1 million to goodwill comprised of \$1 million to Other Accrued Liabilities. The allocation of purchase price shown below remains preliminary and is subject to further adjustment, pending additional refinement and final completion of valuations, including but not limited to valuations of property and equipment, customer relationships and other intangible assets, and deferred tax liabilities. Goodwill is primarily attributed to synergies from future expected economic benefits, including enhanced revenue growth from expanded capabilities and geographic presence as well as substantial cost savings from reduction of duplicative overhead, streamlined operations and enhanced operational efficiency.

In millions		l as of
Total Purchase Consideration	\$	1,487
Cash Acquired		75
Receivables, Net		212
Inventories		166
Other Current Assets		12
Property, Plant and Equipment ^(b)		529
Intangible Assets(c)		447
Other Assets		76
Total Assets Acquired		1,517
Accounts Payable		109
Compensation and Employee Benefits		12
Other Accrued Liabilities		105
Short-Term Debt and Current Portion of Long-Term Debt		9
Long-Term Debt		17
Deferred Income Tax Liabilities		164
Accrued Pension and Postretirement Benefits		50
Other Noncurrent Liabilities		41
Noncontrolling Interests		2
Total Liabilities Assumed		509
Net Assets Acquired		1,008
Goodwill		479
Total Estimated Fair Value of Net Assets Acquired	\$	1,487

(a) The amounts were translated from Euro to USD using the rate at the acquisition date of 1.1539.

(b) Property, Plant and Equipment primarily consists of Machinery and Equipment of \$371 million with a weighted average life of approximately 12 years.

(c) Intangible Assets primarily consists of Customer Relationships of \$439 million with a weighted average life of approximately 15 years.

The above fair values of assets acquired and liabilities assumed are preliminary and are based on the information that was available as of the reporting date. The fair values of the tangible assets acquired and liabilities assumed were preliminarily determined using the income and cost approaches. In many cases, the determination of the fair values required estimates about discount rates, future expected cash flows and other future events that are judgmental and subject to change. The fair value measurements were primarily based on significant inputs that are not observable in the market and thus represent a Level 3 measurement of the fair value hierarchy as defined in ASC 820, Fair Value Measurements ("ASC 820"). Intangible assets consisting of customer relationships, technology, and trade names were valued using the discounted cash flow analysis. The significant assumptions used to estimate the value of the customer relationships intangible assets included the discount rate, annual revenue growth rates, customer attrition rates, projected operating expenses, projected EBITDA margins, tax rate, depreciation, and contributory asset charge.

The Company believes that the information provides a reasonable basis for estimating the fair values of the acquired assets and assumed liabilities, but the potential for measurement period adjustments exists based on the Company's continuing review of matters related to the acquisition. The Company expects to complete the purchase price allocation as soon as practicable, but no later than one year from the acquisition date.

The Condensed Consolidated Statements of Operations include \$271 million of Net Sales and \$62 million of Net Loss for AR Packaging for the three months ended June 30, 2022 and \$552 million of Net Sales and \$51 million of Net Loss for the six months ended June 30, 2022. Both the three and six months ended include \$92 million of impairment charges incurred in Q2 2022. See "Note 14 - Impairment and divestiture of Russian business" for further information.

The following unaudited pro forma consolidated financial information for the three months ended and six months ended June 30, 2021 combines the results of the Company for fiscal 2021 and the unaudited results of AR Packaging for the corresponding period. The unaudited pro forma consolidated financial information assumes that the acquisition, which closed on November 1, 2021, was completed on January 1, 2021 (the first day of fiscal 2021). The pro forma consolidated financial information has been calculated after applying the Company's accounting policies and includes adjustments for amortization expense of acquired intangible assets, fair value adjustments for acquired inventory, property, plant and equipment and long-term debt. These pro forma results have been prepared for comparative purposes only and do not purpor to be indicative of the operating results of the Company that would have been achieved had the acquisition actually taken place on January 1, 2021. In addition, these results are not intended to be a projection of future results and do not reflect events that may occur after the acquisition, including but not limited to revenue enhancements, cost savings or operating synergies that the combined Company may achieve as a result of the acquisition.

Total	\$	2,118	\$ 967	\$	1,129

⁽a) In accordance with its debt agreements, the Company's availability under its revolving credit facilities has been reduced by the amount of standby letters of credit issued of \$2 million as of June 30, 2022. These letters of credit are primarily used as security against the Company's self-insurance obligations and workers' compensation obligations. These letters of credit are primarily used as security against the Company's self-insurance obligations and workers' compensation obligations. These letters of credit expire at various dates through 2022 unless extended.

⁽a) Guaranteed by GPHC and certain domestic subsidiaries.
(b) Guaranteed by GPIP and certain domestic subsidiaries.
(c) The effective interest rates for the Company's Senior Secured Revolving Credit Facilities were 2.56% and 1.63% as of June 30, 2022 and December 31, 2021, respectively.

Covenant Agreements

The Covenants in the Company's Fourth Amended and Restated Credit Agreement (as amended, the "Current Credit Agreement") and the indentures governing the 4.875% Senior Notes due 2022, 0.821% Senior Notes due 2024, 4.125% Senior Notes due 2024, 1.512% Senior Notes due 2026, 4.75% Senior Notes due 2027, 3.50% Senior Notes due 2028, 3.50% Senior Notes due 2029, 2.625% Senior Notes due 2029 and 3.75% Senior Notes due 2030 (the "Indentures"), limit the Company's ability to incur additional indebtedness. Additional covenants contained in the Current Credit Agreement and the Indentures may, among other things, restrict the ability of the Company to dispose of assets, incur guarantee obligations, prepay other indebtedness, repurchase stock, pay dividends and make other restricted payments, create liens, make equity or debt investments, make acquisitions, modify terms of the Indentures, engage in mergers or consolidations, change the business conducted by the Company and its subsidiaries, and engage in certain transactions with affiliates. Such restrictions could limit the Company's ability to respond to changing market conditions, fund its capital spending program, provide for unexpected capital investments or take advantage of business opportunities.

As of June 30, 2022, the Company was in compliance with the covenants in the Current Credit Agreement and the Indentures.

NOTE 5 — STOCK INCENTIVE PLANS

The Company has one active equity compensation plan from which new grants may be made, the Graphic Packaging Holding Company 2014 Omnibus Stock and Incentive Compensation Plan (the "2014 Plan"). The 2014 Plan allows for granting shares of stock, options, stock appreciation rights, restricted stock, restricted stock units ("RSUs"), restricted stock awards ("RSAs"), and other types of stock-based and cash awards. Awards under the 2014 Plan vest and expire in accordance with terms established at the time of grant. Shares issued pursuant to awards under the 2014 Plan are from GPHC's authorized but unissued shares. Compensation costs are recognized on a straight-line basis over the requisite service period of the award and are adjusted for actual performance for performance-based awards. As of June 30, 2022, there were 10.4 million shares remaining available to be granted under the 2014 Plan.

Stock Awards, Restricted Stock and Restricted Stock Units

Under the 2014 Plan, all RSUs granted to employees generally vest and become payablethree years from date of grant. RSUs granted to employees generally contain some combination of service and performance objectives based on various financial targets and relative total shareholder return that must be met for the RSUs to vest. RSUs granted as deferred compensation for non-employee directors are fully vested but not payable until the distribution date elected by the director. RSAs issued to non-employee directors as part of their compensation for service on the Board are unrestricted on the grant date.

Data concerning RSUs and RSAs granted in the first six months of 2022 is as follows:

		Weighted Average Grant Date Fair Value Per Share
RSUs — Employees and Non-Employee Directors	1,907,453 \$	20.16
Stock Awards — Board of Directors	34,160 \$	20.49

During the six months ended June 30, 2022 and 2021, \$17 million and \$18 million, respectively, were charged to compensation expense for stock incentive plans and such amounts are included in Selling, General and Administrative expenses in the Condensed Consolidated Statements of Operations.

During each of the six months ended June 30, 2022 and 2021,1.2 million shares were issued. The shares issued were primarily related to RSUs granted to employees during 2019 and 2018.

NOTE 6 — PENSIONS AND OTHER POSTRETIREMENT BENEFITS

The Company maintains both defined benefit pension plans and postretirement health care plans that provide medical and life insurance coverage to eligible salaried and hourly retired employees in North America and their dependents. The Company maintains international defined benefit pension plans which are either noncontributory or contributory and are funded in accordance with applicable local laws. Pension or termination benefits are based primarily on years of service and the employee's compensation.

Pension Expense

The pension expenses related to the Company's plans consisted of the following:

	Three Months Ended			Six Months Ended			
	June 30,			June 30,			
In millions	202	2	2021	2022	2021		
Components of Net Periodic Cost:							
Service Cost	\$	3 \$	3 \$	7 \$	8		
Interest Cost		3	2	6	4		
Expected Return on Plan Assets		(5)	(4)	(11)	(9)		
Amortization:							
Actuarial Loss		1	1	2	2		
Net Periodic Cost	\$	2 \$	2 \$	4 \$	5		

Employer Contributions

The Company made \$8 million and \$15 million of contributions to its pension plans during the first six months of 2022 and 2021 respectively. In the first quarter of 2022 and 2021, the Company made a \$6 million and \$14 million contribution to its remaining U.S. defined benefit plan by effectively utilizing the excess balance related to the U.S. defined benefit plan terminated in 2020, respectively. Excluding this \$6 million contribution, the Company expects to make contributions in the range of \$10 million to \$20 million for the full year of 2022

The Company also made postretirement health care benefit payments of \$1 million during the first six months of 2022. The Company expects to make approximately \$\Display\$ million contributions to its postretirement health care plans for the full year of 2022.

NOTE 7 — FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENT

The Company enters into derivative instruments for risk management purposes only, including derivatives designated as hedging instruments under the Derivatives and Hedging topic of the FASB Codification and those not designated as hedging instruments under this guidance. The Company uses natural gas swap contracts and used interest rate swaps and forward exchange contracts. These derivative instruments are designated as cash flow hedges and, to the extent they are effective in offsetting the variability of the hedged cash flows, changes in the derivatives' fair value are not included in current earnings but are included in Accumulated Other Comprehensive Loss. These changes in fair value will subsequently be reclassified to earnings, contemporaneously with and offsetting changes in the related hedged exposure and presented in the same line of the income statement expected for the hedged item.

For more information regarding the Company's financial instruments and fair value measurement, see "Note 10 - Financial Instruments, Derivatives and Hedging Activities" and "Note 11 - Fair Value Measurement" of the Notes to the Consolidated Financial Statements of the Company's 2021 Annual Report on Form 10-K.

Interest Rate Risk

The Company used interest rate swaps to manage interest rate risks on future interest payments caused by interest rate changes on its variable rate term loan facility. Changes in fair value will subsequently be reclassified into earnings as a component of Interest Expense, Net as interest is incurred on amounts outstanding under the term loan facility.

As of December 31, 2021, the Company had interest rate swap positions with a notional value of \$\Delta 00\$ million which matured in January 2022. As of June 30, 2022, the Company had no outstanding interest rate swaps. As discussed in "Note 8 - Income Taxes", a \$10 million expense was recorded to release the lingering tax expense remaining in Other Comprehensive Income after the settlement of these swaps in the first quarter of 2022.

During the first six months of 2021, there wereno amounts of ineffectiveness related to changes in the fair value of interest rate swap agreements. Additionally, there wereno amounts excluded from the measure of effectiveness.

Commodity Risk

To manage risks associated with future variability in cash flows and price risk attributable to purchases of natural gas, the Company enters into natural gas swap contracts to hedge prices for a designated percentage of its expected natural gas usage. Such contracts are designated as cash flow hedges. The contracts are carried at fair value with changes in fair value recognized in Accumulated Other Comprehensive Loss and resulting gain or loss reclassified into Cost of Sales concurrently with the recognition of the commodity consumed. The Company has hedged approximately 38% and 8% of its expected natural gas usage for the remainder of 2022 and first quarter of 2023, respectively.

During the first six months of 2022 and 2021, there wereno amounts of ineffectiveness related to changes in the fair value of natural gas swap contracts. Additionally, there wereno amounts excluded from the measure of effectiveness.

Foreign Currency Risk

The Company entered into forward exchange contracts to manage risks associated with foreign currency transactions and future variability of cash flows arising from those transactions that may be adversely affected by changes in exchange rates. The contracts are carried at fair value with changes in fair value recognized in Accumulated Other Comprehensive Loss and gains/losses related to these contracts are recognized in Other Expense, Net or Net Sales, when appropriate.

As of June 30, 2022 and December 31, 2021, the Company had no outstanding forward exchange contracts,

No amounts were reclassified to earnings during 2021 in connection with forecasted transactions that were considered probable of not occurring and there was amount of ineffectiveness related to changes in the fair value of foreign currency forward contracts. Additionally, there were no amounts excluded from the measure of effectiveness.

Derivatives not Designated as Hedges

The Company enters into forward exchange contracts to effectively hedge substantially all of its accounts receivables resulting from sales transactions and intercompany loans denominated in foreign currencies in order to manage risks associated with variability in cash flows that may be adversely affected by changes in exchange rates. At June 30, 2022 and December 31, 2021, multiple foreign currency forward exchange contracts existed, with maturities ranging up to six months. Those foreign currency exchange contracts outstanding at June 30, 2022 and December 31, 2021, when aggregated and measured in U.S. dollars at contractual rates at June 30, 2022 and December 31, 2021, had net notional amounts totaling \$123\$ million and \$103\$ million, respectively. Unrealized gains and losses resulting from these contracts are recognized but unrealized gains and losses on the remeasurement of these accounts receivable.

Deal Contingent Hedge

On May 14, 2021, in connection with the AR Packaging acquisition, the Company entered into deal contingent foreign exchange forward contracts, with no upfront cash cost, to hedge €700 million of the acquisition price. These forward contracts settled October 29, 2021 concurrently with the acquisition of AR Packaging and are accounted for as derivatives under ASC 815, Derivatives and Hedging. Unrealized losses of \$17 million resulting from these contracts are recognized in Business Combinations, Shutdown and Other Special Charges, and Exit Activities, Net on the Company's Condensed Consolidated Statements of Operations for the three and six months ended June 30, 2021. For more information, see "Note 1 - General Information" of the Company's 2021 Annual Report on Form 10-K for the year ended December 31, 2021.

Fair Value of Financial Instruments

The Company's derivative instruments are carried at fair value. The Company has determined that the inputs to the valuation of these derivative instruments are Level 2 in the fair value hierarchy. Level 2 inputs are defined as quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument. The Company uses valuation techniques based on discounted cash flow analyses, which reflect the terms of the derivatives and use observable market-based inputs, including forward rates, and uses market price quotations obtained from independent derivatives brokers, corroborated with information obtained from independent pricing service providers.

As of June 30, 2022, there has not been any significant impact to the fair value of the Company's derivative liabilities due to its own credit risk. Similarly, there has not been any significant adverse impact to the Company's derivative assets based on evaluation of the Company's counterparties' credit risks. As of June 30, 2022, the Company had commodity contract derivatives liabilities, which were included in Other Accrued Liabilities on the Condensed Consolidated Balance Sheet, of \$3 million. As of December 31, 2021, the Company had commodity contract derivatives assets, which were included in Other Current Assets on the Condensed Consolidated Balance Sheet, of \$2 million.

The fair values of the Company's other financial assets and liabilities at June 30, 2022 and December 31, 2021 approximately equal the carrying values reported on the Condensed Consolidated Balance Sheets except for Long-Term Debt. The fair value of the Company's Long-Term Debt (excluding finance leases and deferred financing fees) was \$ 5,313 million and \$5,715 million as compared to the carrying amounts of \$5,642 million and \$5,676 million as of June 30, 2022 and December 31, 2021, respectively. The fair value of the Company's Total Debt, including the Senior Notes, is based on quoted market prices (Level 2 inputs). Level 2 valuation techniques for Long-Term Debt are based on quotations obtained from independent pricing service providers.

Effect of Derivative Instruments

The pre-tax effect of derivative instruments in cash flow hedging relationships on the Company's Condensed Consolidated Statements of Operations is as follows:

	A	mount of Los	s (Gain) Recogni Comprehensi	zed in Accumulative Loss	ed Other	-	An	nount of (Gain)	Loss Recognize	d in Statement of Operations

At June 30, 2022, the Company expects to reclassify \$3 million of pre-tax loss in the next twelve months from Accumulated Other Comprehensive Loss to earnings, contemporaneously with and offsetting changes in the related hedged exposure. The actual amount that will be reclassified to future earnings may vary from this amount as a result of changes in market conditions.

The pre-tax effect of derivative instruments not designated as hedging instruments on the Company's Condensed Consolidated Statements of Operations is as follows:

	Inre	e Months End	lea June 30, S	Six Months Ended June 30

Total		\$	(7)\$	16 \$	(9)\$	13

NOTE 8 — INCOME TAXES

Substantially all the Company's operations are held through its investment in GPIP, a subsidiary that is classified as a partnership for U.S. income tax purposes and is generally not subject to domestic income tax expense. As a result, the consolidated financial statements exclude the domestic tax effect of the earnings attributable to the noncontrolling partner's interest in GPIP for the portion of the year in which the noncontrolling partner held an interest.

During the six months ended June 30, 2022, the Company recognized Income Tax Expense of \$5 million on Income before Income Taxes of \$258 million. The effective tax rate for the six months ended June 30, 2022 was different than the statutory rate primarily due to the discrete tax impact of the charges associated with the divestiture of the Company's Russia business that results in no corresponding tax benefit as well as discrete tax adjustments, tax expense of \$10 million recorded to release the lingering tax expense remaining in Other Comprehensive Income after the settlement of certain swaps and a tax benefit of \$2 million related to excess tax benefits on restricted stock that vested during the period. In addition, the recognition of deferred tax assets and liabilities on unrealized foreign currency activity related to intercompany loans where the entity functional currency and the loan denomination currency are different than the tax reporting currency resulted in a decrease in the effective tax rate for the period.

During the six months ended June 30, 2021, the Company recognized Income Tax Expense of \$44 million on Income before Income Taxes of \$147 million. The effective tax rate for the six months ended June 30, 2021 was higher than the statutory rate primarily due to discrete tax expense recorded during the period of \$8 million, the tax effect of income attributable to noncontrolling interests as well as the mix and levels of earnings between foreign and domestic tax jurisdictions. The Company recorded discrete tax expense of \$3 million related to the remeasurement of the net deferred tax liability for its UK subsidiaries due to the statutory tax rate increase enacted during the period. The Company also recorded discrete tax expense of \$5 million related to the remeasurement of deferred tax assets for executive compensation as a result of IP's exchange of its remaining shares in GPIP during the period.

NOTE 9 — ENVIRONMENTAL AND LEGAL MATTERS

Environmental Matters

The Company is subject to a broad range of foreign, federal, state and local environmental, health and safety laws and regulations, including those governing discharges to air, soil and water, the management, treatment and disposal of hazardous substances, solid waste and hazardous wastes, the investigation and remediation of contamination resulting from historical site operations and releases of hazardous substances, the recycling of packaging and the health and safety of employees. Compliance initiatives could result in significant costs, which could negatively impact the Company's consolidated financial position, results of operations or cash flows. Any failure to comply with environmental or health and safety laws and regulations or any permits and authorizations required thereunder could subject the Company to fines, corrective action or other sanctions.

Some of the Company's current and former facilities are the subject of environmental investigations and remediations resulting from historic operations and the release of hazardous substances or other constituents. Some current and former facilities have a history of industrial usage for which investigation and remediation obligations may be imposed in the future or for which indemnification claims may be asserted against the Company. Also, closures or sales of facilities may necessitate investigation and may result in remediation activities at those facilities.

The Company has established reserves for those facilities or issues where a liability is probable and the costs are reasonably estimable. The Company believes that the amounts accrued for its loss contingencies, and the reasonably possible loss beyond the amounts accrued, are not material to the Company's consolidated financial position, results of operations or cash flows. The Company cannot estimate with certainty other future compliance, investigation or remediation costs. Some costs relating to historic usage that the Company considers to be reasonably possible of resulting in liability are not quantifiable at this time. The Company will continue to monitor environmental issues at each of its facilities, as well as regulatory developments, and will revise its accruals, estimates and disclosures relating to past, present and future operations, as additional information is obtained.

Legal Matters

The Company is a party to a number of lawsuits arising in the ordinary conduct of its business. Although the timing and outcome of these lawsuits cannot be predicted with certainty, the Company does not believe that disposition of these lawsuits will have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows.

NOTE 10 — SEGMENT INFORMATION

The Company has three reportable segments as follows:

Paperboard Mills includes the seven North American paperboard mills that produce primarily CRB, CUK, and SBS, which is consumed internally to produce paperboard packaging for the Americas and Europe Packaging segments. The remaining paperboard is sold externally to a wide variety of paperboard packaging converters and brokers. The Paperboard Mills segment Net Sales represent the sale of paperboard only to external customers. The effect of intercompany transfers to the paperboard packaging segments has been eliminated from the Paperboard Mills segment to reflect the economics of the integration of these segments.

Americas Paperboard Packaging includes paperboard packaging, primarily folding cartons, sold primarily to consumer packaged goods ("CPG") companies, and cups, lids and food containers sold primarily to foodservice companies and quick-service restaurants ("QSR"), serving the food, beverage, and consumer product markets in the Americas.

Europe Paperboard Packaging includes paperboard packaging, primarily folding cartons, sold primarily to CPG companies serving the food, beverage and consumer product markets including healthcare and beauty primarily in Europe.

The Company allocates certain mill and corporate costs to the reportable segments to appropriately represent the economics of these segments. The Corporate and Other caption includes the Pacific Rim and Australia operating segments and unallocated corporate and one-time costs.

These segments are evaluated by the chief operating decision maker based primarily on Income from Operations, as adjusted for depreciation and amortization. The accounting policies of the reportable segments are the same as those described above in "Note 1 - General Information."

Segment information is as follows:

Benefits").

NOTE 13 — EXIT ACTIVITIES

In March 2022, the Company announced its decision to close the Norwalk, Ohio folding carton facility, which it plans to close by the end of the third quarter of 2022. The Company has incurred charges associated with this exit activity for post-employment benefits, retention bonuses and incentives, which are included in the Severance costs and other line item in the table below for the six months ended June 30, 2022.

During 2019, the Company announced its plans to invest in a new CRB paper machine in Kalamazoo, Michigan. At the time of the announcement, the Company expected to close two of its smaller CRB Mills in 2022 in order to remain capacity neutral. During the third quarter of 2021, the Company decided to continue to operation of the two original smaller CRB mills at least through 2022. In the second quarter of 2022, the Company closed the Battle Creek, MI CRB mill. The Company has incurred charges associated with this exit activity for post-employment benefits, retention bonuses and incentives, which are included in the Severance costs and other line item in the table below for the six months ended June 30, 2022 and 2021.

During the six months ended June 30, 2022 and 2021, the Company recorded \$17 million and \$18 million of exit costs, respectively, associated with these restructurings. Other costs associated with the start-up of the new CRB paper machine are recorded in the period in which they are incurred.

The following table summarizes the costs incurred during the six months ended June 30, 2022 and 2021 related to these restructurings:

		Three Months Ended June 30,				Six Months Ended June 30,				
In millions	Location in Statement of Operations		2022		2021		2022		2021	
Severance costs and other ^(a)	Business Combinations, Shutdown and Other Special Charges, and Exit Activities, Net	\$		_	\$ 4	4	\$	1 \$		8
Asset Write-Offs and Start-Up Costs ^(b)	Business Combinations, Shutdown and Other Special Charges, and Exit Activities, Net			4	_	_		9		_
Accelerated depreciation	Cost of Sales			3	:	5		7		10
Total		\$		7	\$ 9)	\$ 1	7 \$		18

⁽a) Costs incurred include activities for post-employment benefits, retention bonuses, incentives and professional services (see 'Note 1 - Business Combinations, Shutdown and Other Special Charges and Exit Activities, net").

(b) Costs incurred include non-cash write-offs for items such as supplies and inventory.

The following table summarizes the balance of accrued expenses related to restructuring:

In millions	Total
Balance at December 31, 2021	\$ 8
Costs incurred	1
Payments	(4)
Balance at June 30, 2022	\$ 5

In conjunction with the CRB platform optimization project and closure of the Battle Creek, MI CRB Mill, the Company incurred charges associated with these exit activities through June 30, 2022 for post-employment benefits, retention bonuses and incentives of \$15 million, and accelerated depreciation of \$52 million.

NOTE 14 — IMPAIRMENT AND DIVESTITURE OF RUSSIAN BUSINESS

In the second quarter of 2022, the Company began the process of divesting its interests in its two folding carton plants in Russia (the "Russian Operations"), which met the criteria of to be considered a business, through a sale of 100% of the outstanding shares. The Company expects the sale to be completed within the next 12 months. The assets and liabilities to be disposed of in connection with this transaction met the held for sale criteria as of June 30, 2022. Goodwill totaling \$12 million associated with the Russian Operations was determined to be fully impaired as of June 30, 2022, resulting in a charge that is included in Business Combinations, Shutdown and Other Special Charges, and Exit Activities, Net in the Condensed Consolidated Statement of Operations.

After the impairment of the goodwill, the carrying value of the remaining net assets held for sale, inclusive of the cumulative translation adjustment balance attributable to the business, was greater than their fair value, less costs to sell, resulting in a loss of \$80 million, which is included in Business, Combinations, Shutdown and Other Special Charges, and Exit Activities, Net in the Condensed Consolidated Statement of Operations. The assets related to the sale, inclusive of the valuation allowance, and liabilities related to the sale were classified as Other current assets and Other accrued liabilities, respectively, within the Condensed Consolidated Balance Sheet as of June 30, 2022. Excluded from the assets classified as held for sale is an intercompany note totaling \$35 million from the Company. The intercompany note will not be repaid prior to the transaction and will be sold as part of the transaction. Therefore, it is considered when calculating the allowance to adjust the carrying value to the fair value less costs to sell. Upon consummation of the sale of the Russian Operations, the Company will reclassify this note from intercompany to the applicable liability line item in the Condensed Consolidated Balance Sheet as it will represent a liability to an external third party. The cumulative translation adjustment attributable to the business of \$5 million is included within Accumulated Other Comprehensive Income within the Condensed Consolidated Balance Sheet as of June 30, 2022. The Russian Operations and the impairment charges are included in the Europe Paperboard Packaging segment. The Company will continue to evaluate the Russian Operations for changes in the valuation until it is sold.

The following table summarizes the Company's assets and liabilities held for sale by major class:

In millions	June 30, 2022
Cash and Cash Equivalents \$	4
Receivables, Net	19
Inventories	18
Property, Plant and Equipment, Net	28
Intangible Assets, Net	16
Assets Held for Sale	85

Short-Term Debt and Current Portion of Long-Term Debt \$	1
Accounts Payable	6
Other Accrued Liabilities	8
Deferred Income Tax Liabilities	5
Total Liabilities Held for Sale Included in Other Current Accrued Liabilities \$	20

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

INTRODUCTION

This management's discussion and analysis of financial conditions and results of operations is intended to provide investors with an understanding of the Company's past performance, financial condition and prospects. The following will be discussed and analyzed:

- Overview of Business
- Overview of 2022 Results
- Results of Operations
- > Financial Condition, Liquidity and Capital Resources
- Critical Accounting Policies
- New Accounting Standards
- Business Outlook

OVERVIEW OF BUSINESS

The Company's objective is to strengthen its position as a leading provider of sustainable fiber-based consumer packaging solutions. To achieve this objective, the Company offers customers its paperboard, cartons, cups, lids, foodservice containers and packaging machines, either as an integrated solution or separately. Cartons, carriers and containers are designed to protect and hold products. Product offerings include a variety of laminated, coated and printed packaging structures that are produced from the Company's coated-recycled paperboard ("CRB"), coated unbleached kraft paperboard ("CWK") and solid bleached sulfate paperboard ("SBS"). Innovative designs and combinations of paperboard, films, foils, metallization, holographics and embossing are customized to the individual needs of the customers.

The Company is implementing strategies (i) to expand market share in its current markets and to identify and penetrate new markets; (ii) to capitalize on the Company's customer relationships, business competencies, and mills and folding carton assets; (iii) to develop and market innovative, sustainable products and applications that benefit from consumer-led sustainability trends; and (iv) to continue to reduce costs by focusing on operational improvements. The Company's ability to fully implement its strategies and achieve its objectives may be influenced by a variety of factors, many of which are beyond its control, such as inflation of raw material and other costs, which the Company cannot always pass through to its customers, and the effect of overcapacity in the worldwide paperboard packaging industry.

Significant Factors That Impact the Company's Business and Results of Operations

Impact of Inflation/Deflation. The Company's cost of sales consists primarily of energy (including natural gas, fuel oil and electricity), pine and hardwood fiber, chemicals, secondary fibers, purchased paperboard, aluminum foil, ink, plastic films and resins, depreciation expense and labor. Costs increased for the six months ended June 30, 2022 by \$405 million, compared to the first six months of 2021 due to higher commodity inflation costs (\$361 million), labor and benefits (\$24 million) and other costs, net (\$20 million). Commodity inflation was primarily due to external board (\$83 million), mill chemicals (\$63 million), energy (\$56 million), secondary fiber (\$47 million), wood (\$42 million), freight (\$39 million), converting chemicals (\$22 million) and other costs (\$9 million). Because the price of natural gas experiences significant volatility, the Company has entered into natural gas wap contracts designed to manage risks associated with future variability in cash flows caused by changes in the price of natural gas. The Company has entered into natural gas swap contracts to hedge prices for a portion of its expected usage for 2022 and 2023. Since negotiated sales contracts and the market largely determine the pricing for its products, the Company is at times limited in its ability to raise prices and pass through to its customers any inflationary or other cost increases that the Company may incur.

Table of Contents

The Company's operations and financial results could be adversely impacted by global events outside of the Company's control, such as the current COVID-19 pandemic and the conflict between Russia and Ukraine. As a result of global events such as the current COVID-19 pandemic and the conflict between Russia and Ukraine. As a result of global events such as the current COVID-19 pandemic and the conflict between Russia and Ukraine, there could be unpredictable disruptions to the Company's operations that could limit production, reduce its future revenues and negatively impact the Company's financial condition. These global events may result in supply chain and transportation disruptions to and from our facilities and affected employees could impact the Company's ability to operate its facilities and distribute products to its customers in a timely fashion. In addition, these global events may result in extreme volatility and disruptions in the capital and credit markets as well as widespread furloughs and layoffs for workers in the broader economy. During the second quarter, the Company began the process of selling its interests in its two folding carton plants in Russia (the "Russian Operations"), which it expects to complete within the next 12 months. The Company is adhering to all U.S., U.K., and EU sanctions, and the two plants are currently operating to meet existing multi-national customer contractual commitments where possible. For the six months ended June 30, 2022, the Company's Russian Operations provided approximately 1% of the Company's Net Sales and less than 1% of the Company's EBITDA. Refer to "Note 14 - Impairment and Divestiture of Russian Business" in the Notes to Condensed Consolidated Financial Statements for additional information and Part I, "Item 1A., Risk Factors" of the Company's 2021 Annual Report on Form 10-K, and in other filings with the Securities and Exchange Commission.

Commitment to Cost Reduction. In light of continuing margin pressure throughout the packaging industry, the Company has programs in place that are designed to reduce costs, improve productivity and increase profitability. The Company utilizes a global continuous improvement initiative that uses statistical process control to help design and manage many types of activities, including production and maintenance. This includes a Six Sigma process focused on reducing variable and fixed manufacturing and administrative costs and the use of Lean Sigma principles in manufacturing and supply chain processes.

The Company's ability to continue to successfully implement its business strategies and to realize anticipated savings and operating efficiencies is subject to significant business, economic and competitive uncertainties and contingencies, many of which are beyond the Company's control. If the Company cannot successfully implement the strategic cost reductions or other cost savings plans, it may not be able to continue to compete successfully against other manufacturers. In addition, any failure to generate the anticipated efficiencies and savings could adversely affect the Company's financial results.

Competition and Market Factors. As some products can be packaged in different types of materials, the Company's sales are affected by competition from other manufacturers' CRB, CUK, SBS, folding box board, and recycled clay-coated news. Additional substitute products also include plastic, shrink film and corrugated containers. In addition, while the Company has long-term relationships with many of its customers, the underlying contracts may be re-bid or renegotiated from time to time, and the Company may not be successful in renewing on favorable terms or at all. The Company works to maintain market share through efficiency, product innovation, service and strategic sourcing to its customers; however, pricing and other competitive pressures may occasionally result in the loss of a customer relationship.

In addition, the Company's sales are driven by consumer buying habits in the markets its customers serve. Recently, the Company has seen net organic sales growth driven by the consumers' desire for sustainable packaging solutions. Changes in consumer dietary habits and preferences, increases in the costs of living, unemployment rates, access to credit markets, as well as other macroeconomic factors, may negatively affect consumer spending behavior. New product introductions and promotional activity by the Company's customers and the Company's introduction of new packaging products also impact its sales.

Debt Obligations. The Company had an aggregate principal amount of \$5,831 million of outstanding debt obligations as of June 30, 2022. This debt has consequences for the Company, as it requires a portion of cash flow from operations to be used for the payment of principal and interest, exposes the Company to the risk of increased interest rates and may restrict the Company's ability to obtain additional financing. Covenants in the Company's Fourth Amended and Restated Credit Agreement (as amended, the "Current Credit Agreement") and the indentures governing the 4.875% Senior Notes due 2022, 0.821% Senior Notes due 2024, 4.125% Senior Notes due 2024, 1.512% Senior Notes due 2024, 2.625% Senior Notes due 2027, 3.50% Senior Notes due 2028, 3.50% Senior Notes due 2029, 2.625% Senior Notes due 2029 and 3.75% Senior Notes due 2020 (the "Indentures") may, among other things, restrict the ability of the Company to dispose of assets, incur guarantee obligations, prepay other indebtedness, repurchase stock, pay dividends, make other restricted payments and make acquisitions or other investments. The Current Credit Agreement also requires compliance with a maximum consolidated leverage ratio and a minimum consolidated interest coverage ratio. The Company's ability to comply in future periods with the financial covenants will depend on its ongoing financial and operating performance, which in turn will be subject to many other factors, many of which are beyond the Company's control. See "Covenant Restrictions" in "Financial Condition, Liquidity and Capital Resources" for additional information regarding the Company's debt obligations.

The debt and the restrictions under the Current Credit Agreement and the Indentures could limit the Company's flexibility to respond to changing market conditions and competitive pressures. The outstanding debt obligations and the restrictions may also leave the Company more vulnerable to a downturn in general economic conditions or its business, or unable to carry out capital expenditures that are necessary or important to its growth strategy and productivity improvement programs.

OVERVIEW OF SECOND QUARTER 2022 RESULTS

This management's discussion and analysis contains an analysis of Net Sales, Income from Operations and other information relevant to an understanding of the Company's results of operations on a Consolidated basis:

- Net Sales for the three months ended June 30, 2022 increased \$621 million or 36% to \$2,358 million from \$1,737 million for the three months ended June 30, 2021 due to the acquisitions of Americant in Q3 2021 and AR Packaging in Q4 2021, higher selling prices, increased volume from conversions to fiber-based packaging solutions, and mix, partially offset by lower volume of open market sales and unfavorable foreign exchange.
- Income from Operations for the three months ended June 30, 2022 increased \$57 million or 60% to \$152 million from \$95 million for the three months ended June 30, 2021 due to higher pricing, higher volumes from organic sales growth and acquisitions, cost savings from continuous improvement and other programs, and product mix, partially offset by unfavorable commodity inflation and other inflation (primarily labor and benefits), lower volume of open market sales, higher depreciation and amortization, and \$92 million of impairment charges related to the Company's intent to sell its Russian Operations.

Acquisitions and Dispositions

- In May 2022, the Company committed to sell its two converting facilities in Russia and classified the facilities as held for sale resulting in impairment charges of \$92 million in the second quarter of 2022 including \$12 million of goodwill impairment.
- In May 2022, the Company closed the Battle Creek, MI CRB mill.
- In March 2022, the Company announced its decision to close the Norwalk, Ohio folding carton facility, which it plans to close by the end of the third quarter of 2022.
- On November 1, 2021, the Company acquired all the shares of AR Packaging, Europe's second largest producer of fiber-based consumer packaging. The acquisition included 30 converting plants in 13 countries and is reported within the Europe Paperboard Packaging reportable segment.
- On July 1, 2021, the Company acquired substantially all the assets of Americaft, the largest independent folding carton converter in North America. The acquisition included seven converting plants across the United States and is reported within the Americas Paperboard Packaging reportable segment.

Share Repurchases and Dividends

- On May 24, 2022, the Company's board of directors declared a regular quarterly dividend of \$0.075 per share of common stock payable on July 5, 2022 to shareholders of record as of June 15, 2022.
- On January 28, 2019, the Company's board of directors authorized a share repurchase program to allow the Company to purchase up to \$500 million of the Company's issued and outstanding shares of common stock through open market purchases, privately negotiated transactions and Rule 10b5-1 plans (the "2019 share repurchase program"). During the first six months of 2022, the Company repurchased 379,000 shares of its common stock at an average price of \$20.46 under the 2019 share repurchase program. During the six months ended June 30, 2021, the Company did not repurchase any shares of its common stock under the 2019 share repurchase program. As of June 30, 2022, the Company has \$139 million available for additional repurchases under the 2019 share repurchase program.

RESULTS OF OPERATIONS

In millions	2021		Price	Volume/Mix	Exchange	2022	Increase	Percent Change				
Consolidated	\$	1,737 \$	278 \$	379 \$	(36) \$	2,358 \$	621	36 %				

Thusa Months Ended June 20

The Company's Net Sales for the three months ended June 30, 2022 increased by \$621 million or 36% to \$2,358 million from \$1,737 million for the three months ended June 30, 2021 due to \$342 million of net sales related to the acquisitions of Americarft in Q3 2021 and AR Packaging in Q4 2021, higher selling prices, increased volume from conversions to fiber-based packaging solutions and new product introductions, and mix, partially offset by lower volume of open market sales and unfavorable foreign exchange, primarily the Euro, British Pound, Canadian dollar, Japanese Yen, and Australian dollar. Core converting volumes were up driven by dry foods, cereal, tissue and frozen pizza partially offset by lower volumes in beverage, bakery, and pet food.

Income from Operations

The components of the change in Income from Operations are as follows:

	Three Months Ended June 30,										
			Variances								
In millions		2021	Price	Volume/Mix	Inflation	Excl	hange (Other (a)	2022	Increase	Percent Change
Consolidated	\$	95 \$	278	\$ 61	\$ (21	0) \$	(16) \$	(56) \$	152	\$ 57	60 %

(a) Includes the Company's cost reduction initiatives, planned mill maintenance costs, expenses related to acquisitions and integration activities, exit activities and shutdown and other special charges.

Income from Operations for the three months ended June 30, 2022 increased \$57 million or 60% to \$152 million from \$95 million for the three months ended June 30, 2021 due to higher pricing, higher volumes from organic sales growth and acquisitions, mix, cost savings from continuous improvement and other programs, partially offset by unfavorable commodity inflation and other inflation (primarily labor and benefits), unfavorable foreign exchange, lower volume of open market sales, higher depreciation and amortization, and \$92 million of impairment charges related to the Company's commitment to sell its Russian operations.

Inflation increased for the three months ended June 30, 2022 by \$210 million compared to the first three months of 2021 primarily due to higher commodity inflation costs (\$185 million), labor and benefits (\$12 million) and other costs, net (\$13 million). Commodity inflation was primarily due to external board (\$44 million), energy (\$35 million), mill chemicals (\$32 million), secondary fiber (\$21 million), wood (\$19 million), logistics (\$18 million), converting chemicals (\$11 million) and other costs (\$5 million).

Interest Expense, Net

Interest Expense, Net was \$48 million and \$29 million for the three months ended June 30, 2022 and 2021, respectively. Interest Expense, Net increased due to higher debt balances and interest rates. As of June 30, 2022, approximately 34% of the Company's total debt was subject to floating interest rates.

Income Tax Expense

During the three months ended June 30, 2022, the Company recognized Income Tax Expense of \$39 million on Income before Income Taxes of \$105 million. The effective tax rate for the three months ended June 30, 2022 is different from the statutory rate primarily due to the impairment charge on the Company's Russia business that results in no corresponding tax benefit. In addition, the recognition of deferred tax assets and liabilities on unrealized FX activity related to intercompany loans where the entity functional currency and the loan denomination is different than the tax reporting currency, resulted in a decrease in the effective tax rate for the period.

During the three months ended June 30, 2021, the Company recognized Income Tax Expense of \$26 million on Income before Income Taxes of \$67 million. The effective tax rate for the three months ended June 30, 2021 is higher than the statutory rate primarily due to discrete tax expense recorded during the period of \$8 million, the tax effect of income attributable to noncontrolling interests as well as the mix and levels of earnings between foreign and domestic tax jurisdictions. The Company recorded discrete tax expense of \$3 million related to the remeasurement of the net deferred tax liability for its UK subsidiaries due to the statutory tax rate increase enacted during the period. The Company also recorded discrete tax expense of \$5 million related to the remeasurement of deferred tax assets for executive compensation as a result of IP's exchange of its remaining shares in GPIP during the period.

The Company utilized its remaining U.S. federal net operating loss carryforwards during 2020. However, as a result of deductions associated with the step-up in tax basis of certain assets as a result of International Paper's exit from the GPIL partnership, the Company generated a taxable loss of \$574 million during 2021 that can be carried forward for U.S. federal income tax purposes indefinitely. As such, based on the net operating loss generated in 2021 as well as future tax benefits associated with planned capital projects and tax credit carryforwards, which are available to offset future U.S. federal income tax, the Company does not expect to be a meaningful U.S. federal cash taxpayer until 2024.

FIRST SIX MONTHS 2022 COMPARED WITH FIRST SIX MONTHS 2021

Net Sales

The components of the change in Net Sales are as follows:

		Six Months Ended June 30,								
	·				·					
In millions		2021	Price	Volume/Mix	Exchange	2022	Increase	Percent Change		
Consolidated	\$	3,386 \$	499 \$	765 \$	(47) \$	4,603 \$	1,217	36 %		

The Company's Net Sales for the six months ended June 30, 2022 increased by \$1,217 million or 36% to \$4,603 million from \$3,386 million for the six months ended June 30, 2021 due to net sales of \$682 million from acquisitions including Americant in the third quarter of 2021 and AR Packaging in the fourth quarter of 2021, higher selling prices, increased volume from conversions to fiber-based packaging solutions and new product introductions, and mix, partially offset by lower volume of open market sales and unfavorable foreign exchange, primarily the Euro, British Pound, Australian dollar, Japanese Yen, and Canadian dollar. Core converting volumes were up driven by higher volumes in dry foods, cereal and tissue partially offset by lower volumes in beverage, bakery and pet food.

Income from Operations

The components of the change in Income from Operations are as follows:

	Six Months Ended June 30,										
						Variances				•	
In millions		2021	Price	Volume/Mix	í.	Inflation	Exchange	Other (a)	2022	Increase	Percent Change
Consolidated	\$	203 \$	499	\$ 111	\$	(405) \$	(14) 5	\$ (49)\$	345	\$ 142	70 %

⁽a) Includes the Company's cost reduction initiatives, planned mill maintenance costs, expenses related to acquisitions and integration activities, exit activities and shutdown and other special charges.

Income from Operations for the six months ended June 30, 2022 increased \$142 million or 70% to \$345 million from \$203 million for the six months ended June 30, 2021 due to higher pricing, higher volumes from organic sales growth and acquisitions, mix, and cost savings from continuous improvement and other programs, partially offset by unfavorable commodity inflation and other inflation (primarily labor and benefits), lower volume of open market sales, higher depreciation and amortization, and \$92 million of impairment charges related to the Company's commitment to sell its Russian operations.

Inflation increased for the six months ended June 30, 2022 by \$405 million compared to the first six months of 2021 due to higher commodity inflation costs (\$361 million), labor and benefits (\$24 million) and other costs, net (\$20 million). Commodity inflation was primarily due to external board (\$83 million), mill chemicals (\$63 million), energy (\$56 million), secondary fiber (\$47 million), wood (\$42 million), freight (\$39 million), converting chemicals (\$22 million) and other costs (\$9 million).

Table of Contents

Interest Expense, Net

Interest Expense, Net was \$90 million and \$59 million for the six months ended June 30, 2022 and 2021, respectively. Interest Expense, Net increased due to higher debt balances and interest rates.

Income Tax Expense

During the six months ended June 30, 2022 and 2021, the Company recognized Income Tax Expense of \$85 million and \$44 million, respectively, on Income before Income Taxes and Equity Income of Unconsolidated Entity of \$258 million and \$147 million, respectively. The effective tax rate for the six months ended June 30, 2022 is different than the statutory rate primarily due to the impairment charges associated with the Company's Russia business that results in no corresponding tax benefit as well as discrete tax adjustments, including tax expense of \$10 million, recorded to release the lingering tax expense remaining in Other Comprehensive Income after the settlement of certain swaps and a tax benefit of \$2 million related to excess tax benefits on restricted stock that vested during the period. In addition, the recognition of deferred tax assets and liabilities on unrealized foreign currency activity related to intercompany loans where the entity functional currency and the loan denomination currency are different than the tax reporting currency resulted in a decrease in the effective tax rate for the period.

The effective tax rate for the six months ended June 30, 2021 was different than the statutory rate primarily due to discrete tax expense recorded during the period of \$8 million as well as the tax effect of income attributable to noncontrolling interests as well as the mix and levels of earnings between foreign and domestic tax jurisdictions.

Segment Reporting

The Company has three reportable segments as follows:

Paperboard Mills includes the seven North American paperboard mills that produce primarily CRB, CUK, and SBS, which is consumed internally to produce paperboard packaging for the Americas and Europe Packaging segments. The remaining paperboard is sold externally to a wide variety of paperboard packaging converters and brokers. The Paperboard Mills segment's Net Sales represent the sale of paperboard only to external customers. The effect of intercompany transfers to the paperboard packaging segments has been eliminated from the Paperboard Mills segment to reflect the economics of the integration of these segments.

Americas Paperboard Packaging includes paperboard packaging, primarily folding cartons, sold primarily to consumer packaged goods ("CPG") companies, and cups, lids and food containers sold primarily to foodservice companies and quick-service restaurants ("QSR") serving the food, beverage, and consumer product markets in the Americas.

Europe Paperboard Packaging includes paperboard packaging, primarily folding cartons, sold primarily to CPG companies serving the food, beverage and consumer product markets including healthcare and beauty primarily in Europe.

The Company allocates certain mill and corporate costs to the reportable segments to appropriately represent the economics of these segments. The Corporate and Other caption includes the Pacific Rim and Australia operating segments and unallocated corporate and one-time costs.

These segments are evaluated by the chief operating decision maker based primarily on Income from Operations, as adjusted for depreciation and amortization. The accounting policies of the reportable segments are the same as those described above in "Note 1 - General Information" in the Notes to Condensed Consolidated Financial Statements.

2022 COMPARED WITH 2021

Second Quarter 2022 Compared to Second Quarter 2021

Paperboard Mills

Net Sales increased from prior year due to higher selling prices and mix partially offset by lower open market volume. The Company also internalized more paperboard tons.

Loss from Operations decreased due to higher prices, productivity improvements, including benefits from capital projects and lower levels of maintenance costs partially offset by commodity inflation and lower open market volume. The commodity inflation was primarily due to higher prices for chemicals, energy, secondary fiber, wood, and freight.

Americas Paperboard Packaging

Net Sales increased due to higher pricing, the Americarft acquisition in Q3 2021, organic sales growth including conversions to our fiber-based packaging solutions, and new product introductions. Higher volumes in dry foods, cereal, tissue and frozen pizza were partially offset by lower volumes in beverage, bakery, and pet food. In beverage, volumes decreased primarily in big beer, craft beer and specialty beverages offset by soft drinks.

Income from Operations increased due to higher selling prices, higher core converting volume and increased volume from conversions to our fiber based packaging solutions, cost savings from continuous improvement and other programs partially offset by commodity inflation and other inflation (primarily labor and benefits). The commodity inflation was primarily due to higher prices for external board, energy, chemicals, and freight offset by secondary fiber.

Europe Paperboard Packaging

Net Sales increased due to the acquisition of AR Packaging on November 1, 2021 as well as higher prices, organic sales growth at AR Packaging including conversions to fiber-based packaging, and mix partially offset by lower core converting volumes in certain market segments and unfavorable foreign currency exchange rates.

⁽b) Includes accelerated depreciation related to exit activities in 2022 and 2021.

⁽c) Includes impairment charges of \$92 million related to Russia incurred in Q2 2022. See "Note 14 - Impairment and divestiture of Russian business" in the Notes to Condensed Consolidated Financial Statements for additional information for further information.

⁽d) Includes expenses related to business combinations, shutdown and other special charges, and exit activities.

Table of Contents

Income from Operations decreased primarily due to impairment charges of \$92 million related to the Company's classification of its Russian operations as held for sale in the second quarter. Refer to "Note 14 - Impairment and Divestiture of Russian Business" in the Notes to Condensed Consolidated Financial Statements for additional information. Excluding these impairment charges, Income from Operations increased due to higher pricing, mix, the acquisition of AR Packaging and organic growth from this business partially offset by commodity inflation primarily related to external board, lower net performance primarily labor absorption, unfavorable foreign currency exchange rates, and lower core converting volumes in certain market segments.

First Six Months of 2022 Compared to First Six Months of 2021

Paperboard Mills

Net Sales increased from prior year due to higher selling prices and mix partially offset by lower open market volume. The Company also internalized more paperboard tons.

Income from Operations increased due to downtime and mitigation costs related to Winter Storm Uri in Q1 2021, higher prices, productivity improvements, including benefits from capital projects partially offset by commodity inflation, and lower open market volume. The commodity inflation was primarily due to higher prices for secondary fiber, chemicals, energy, wood, and freight.

Americas Paperboard Packaging

Net Sales increased due to higher pricing, the Americarft acquisition in Q3 2021, organic sales growth including conversions to our fiber-based packaging solutions, and new product introductions. Higher volumes in dry foods, cereal and tissue partially offset by lower volumes in bakery. In beverage, volumes were relatively flat primarily due to increases in soft drink offset by craft beer and specialty beverages.

Income from Operations increased due to higher selling prices, higher core converting volume and increased volume from conversions to our fiber based packaging solutions, cost savings from continuous improvement and other programs partially offset by commodity inflation and other inflation (primarily labor and benefits). The commodity inflation was primarily due to higher prices for external board, freight, energy, and chemicals offset by secondary fiber.

Europe Paperboard Packaging

Net Sales increased due to the acquisition of AR Packaging on November 1, 2021 as well as higher prices, organic sales growth at AR Packaging and new product introductions partially offset by lower core converting volumes in certain market segments, and unfavorable foreign currency exchange rates.

Income from Operations decreased primarily due to impairment charges of \$92 million related to the Company's classification of its Russian operations as held for sale in the second quarter. Refer to "Note 14 - Impairment and Divestiture of Russian Business" in the Notes to Condensed Consolidated Financial Statements for additional information. Excluding these impairment charges, Income from Operations increased due to higher pricing, mix, cost savings through continuous improvement and other programs, and the acquisition of AR Packaging partially offset by commodity inflation primarily related to external board, lower core converting volumes in certain market segments and unfavorable foreign currency exchange rates.

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

The Company broadly defines liquidity as its ability to generate sufficient funds from both internal and external sources to meet its obligations and commitments. In addition, liquidity includes the ability to obtain appropriate debt and equity financing and to convert into cash those assets that are no longer required to meet existing strategic and financial objectives. Therefore, liquidity cannot be considered separately from capital resources that consist of current or potentially available funds for use in achieving long-range business objectives and meeting debt service commitments.

Cash Flows

	Six Months Ended June 30,			
In millions	 2022	2021		
Net Cash Provided by Operating Activities	\$ 288 \$	305		
Net Cash Used in Investing Activities	\$ (311) \$	(289)		
Net Cash Used In Financing Activities	\$ (30) \$	(105)		

Net cash provided by operating activities for the first six months of 2022 totaled \$288 million compared to \$305 million for the same period in 2021. The decrease was primarily due to higher working capital balances including accounts receivable from higher sales and inventory due to inflation. Pension contributions for the first six months of 2022 and 2021 were \$8 million and \$15 million, respectively. In the first quarter of 2022 and 2021, the Company made a \$6 million and \$14 million contribution to its remaining U.S. defined benefit plan by effectively utilizing the excess balance related to U.S. defined benefit plan terminated in 2020.

Table of Contents

Net cash used in investing activities for the first six months of 2022 totaled \$311 million compared to \$289 million for the same period in 2021. Capital spending was \$361 million and \$346 million in 2022 and 2021, respectively. Net cash receipts related to the accounts receivable securitization and sale programs were \$52 million and \$59 million in 2022 and 2021, respectively. For more information on the completion of the K2 project, please see the Capital Investment section below.

Net cash used in financing activities for the first six months of 2022 totaled \$30 million compared to \$105 million for the same period in 2021. Current year activities include borrowings under revolving credit facilities primarily for capital spending, repurchase of common stock of \$7 million and payments on debt of \$7 million. The Company also paid dividends of \$46 million and withheld \$17 million for restricted stock units to satisfy tax withholding obligations related to the payout of restricted stock units. In the prior year period, the Company had a debt drawing of \$425 million Incremental Term A-2 Facility and used the proceeds, together with cash on hand, to redeem the 4.75% Senior Notes due 2021, an offering of \$400 million aggregate principal amount of 0.821% Senior Notes due 2024, and an offering of \$400 million aggregate principal amount of 1.512% Senior Notes due 2026. The net proceeds of \$800 million were used by the Company to repay a portion of the outstanding borrowings under GPIL's term loan credit facilities, which is under its senior secured credit facility. The Company also paid \$150 million toward the redemption of IP's ownership interest in GPIP. In the prior year period, the Company also made borrowings under revolving credit facilities primarily for capital spending, redemption of IP's ownership interest and payments on debt of \$9 million. The Company also paid dividends and distributions of \$48 million and withheld \$14 million of restricted stock units to satisfy tax withholding payments related to the payout of restricted stock units.

Supplemental Guarantor Financial Information

As discussed in "Note 4 - Debf" in the Notes to Condensed Consolidated Financial Statements, the Senior Notes issued by GPIL (the "Issuer") are guaranteed by certain domestic subsidiaries (the "Subsidiary Guarantors"), which consist of all material 100% owned subsidiaries of GPIL other than its foreign subsidiaries and in certain instances by the Company (a Parent guarantee) (collectively "the Guarantors"). GPIL's remaining subsidiaries (the "Nonguarantor Subsidiaries") include all of GPIL's foreign subsidiaries and immaterial domestic subsidiaries. The Subsidiary Guarantors are jointly and severally, fully and unconditionally liable under the guarantees.

Other than tax related items, the results of operations, assets, and liabilities for GPHC and GPIL are substantially the same. Therefore, the summarized financial information below is presented on a combined basis, consisting of the Issuer and Subsidiary Guarantors (collectively, the "Obligor Group"), and is presented after the elimination of: (i) intercompany transactions and balances among the Issuer and Subsidiary Guarantors, and (ii) equity in earnings from and investments in the Nonguarantor Subsidiaries.

In millions	Six Months Ended June 30, 2022
SUMMARIZED STATEMENTS OF OPERATIONS	
Net Sales ^(a)	\$ 3,443
Cost of Sales	2,846
Income from Operations	336
Net Income	243

(a) Includes Net Sales to Nonguarantor Subsidiaries of \$293 million.

'n millions	June 30, 2022	December 31, 2021
SUMMARIZED BALANCE SHEET		
Current assets (excluding intercompany receivable from Nonguarantor)	\$ 1,38\$	1,235
Voncurrent assets	5,875	5,888
intercompany receivables from Nonguarantor	1,245	1,258
Current liabilities	1,390	1,472
Noncurrent liabilities	5,670	5,713

Liquidity and Capital Resources

The Company's liquidity needs arise primarily from the funding of its capital expenditures and acquisitions, debt service on its indebtedness, ongoing operating costs, working capital, share repurchases and dividend payments. Principal and interest payments under the term loan facilities and the revolving credit facilities, together with principal and interest payments on the Company's Indentures, represent liquidity requirements for the Company. Based upon current levels of operations, anticipated cost savings and expectations as to future growth, the Company believes that cash generated from operations, together with amounts available under its revolving credit facilities and other available financing sources, will be adequate to permit the Company to meet its debt service obligations, necessary capital expenditure program requirements and ongoing operating costs and working capital needs, although no assurance can be given in this regard. The Company's future financial and operating performance, ability to service or refinance its debt and ability to comply with the covenants and restrictions contained in its debt agreements (see "Covenant Restrictions" below) will be subject to future economic conditions, including conditions in the credit markets, and to financial, business and other factors, many of which are beyond the Company's control, and will be substantially dependent on the selling prices and demand for the Company's products, raw material and energy costs, and the Company's ability to successfully implement its overall business and profitability strategies. Refer to "Note 4 - Debt" in the Notes to Condensed Consolidated Financial Statements for additional information on the Company's availability under its revolving credit facilities.

Accounts receivable are stated at the amount owed by the customer, net of an allowance for estimated uncollectible accounts, returns and allowances, and cash discounts. The allowance for doubtful accounts is estimated based on historical experience, current economic conditions and the creditworthiness of customers. Receivables are charged to the allowance when determined to be no longer collectible.

The Company has entered into agreements to sell, on a revolving basis, certain trade accounts receivable to third party financial institutions. Transfers under these agreements meet the requirements to be accounted for as sales in accordance with the *Transfers and Servicing* topic of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification (the "Codification"). The loss on sale is not material and is included in Other Expense, Net line item on the Condensed Consolidated Statements of Operations. The following table summarizes the activity under these programs for the six months ended June 30, 2022 and 2021, respectively:

Six Months Ended

	Jun	e 30,	
In millions	2022		2021
Receivables Sold and Derecognized	\$ 1,520	\$	1,531
Proceeds Collected on Behalf of Financial Institutions	1,429		1,421
Net Proceeds Received From Financial Institutions	102		100
Deferred Purchase Price at June 30 ^(a)	8		11
Pledged Receivables at June 30	203		158

⁽a) Included in Other Current Assets on the Condensed Consolidated Balance Sheets and represents a beneficial interest in the receivables sold to the financial institutions, which is a Level 3 fair value measure.

Receivables sold under all programs subject to continuing involvement, which consists principally of collection services, were \$715 million and \$613 million as of June 30, 2022 and December 31, 2021, respectively.

The Company also participates in supply chain financing arrangements offered by certain customers that qualify for sale accounting in accordance with the Transfers and Servicing topic of the FASB Codification. For the six months ended June 30, 2022 and 2021, the Company sold receivables of \$535 million and \$249 million, respectively, related to these arrangements.

Covenant Restrictions

Covenants contained in the Current Credit Agreement and the Indentures may, among other things, limit the ability to incur additional indebtedness, restrict the ability of the Company to dispose of assets, incur guarantee obligations, prepay other indebtedness, repurchase shares, pay dividends and make other restricted payments, create liens, make equity or debt investments, make acquisitions, modify terms of the indentures under which the Notes are issued, engage in mergers or consolidations, change the business conducted by the Company and its subsidiaries, and engage in certain transactions with affiliates. Such restrictions, together with disruptions in the credit markets, could limit the Company's ability to respond to changing market conditions, fund its capital spending program, provide for unexpected capital investments or take advantage of business opportunities.

Under the terms of the Current Credit Agreement, the Company must comply with a maximum Consolidated Total Leverage Ratio covenant and a minimum Consolidated Interest Expense Ratio covenant. The Current Credit Agreement, which contains the definitions of these covenants, was filed as an exhibit to the Company's Form 8-K filed on April 1, 2021

Due to the completion of a material acquisition, the Current Credit Agreement requires that the Company maintain a maximum Consolidated Total Leverage Ratio of less than 5.00 to 1.00. At June 30, 2022, the Company was in compliance with such covenant and the ratio was 3.98 to 1.00.

The Company must also comply with a minimum Consolidated Interest Expense Ratio of 3.00 to 1.00. At June 30, 2022, the Company was in compliance with such covenant and the ratio was 9.51 to 1.00.

As of June 30, 2022, the Company's credit was rated BB+ by Standard & Poor's and Ba1 by Moody's Investor Services. Standard & Poor's and Moody's Investor Services' ratings on the Company included a stable outlook.

Capital Investment

The Company's capital investment in the first six months of 2022 was \$241 million (\$361 million was paid) compared to \$395 million (\$346 million was paid) in the first six months of 2021. The capital investments were primarily due to planned asset upgrades at the U.S.-based mills, including the new CRB paper machine in Kalamazoo, Michigan discussed in "Note 13 - Exit Activities" in the Notes to Condensed Consolidated Financial Statements and continued investments made as part of the integration of acquisitions.

Interest is capitalized on assets under construction for one year or longer with an estimated spending of \$1 million or more. The capitalized interest is recorded as part of the asset to which it relates and is amortized over the asset's estimated useful life. Capitalized interest was \$4 million and \$7 million for the six months ended June 30, 2022 and 2021, respectively.

Environmental Matters

Some of the Company's current and former facilities are the subject of environmental investigations and remediations resulting from historical operations and the release of hazardous substances or other constituents. Some current and former facilities have a history of industrial usage for which investigation and remediation obligations may be imposed in the future or for which indemnification claims may be asserted against the Company. Also, closures or sales of facilities may necessitate further investigation and may result in remediation at those facilities. The Company has established reserves for those facilities or issues where liability is probable and the costs are reasonably estimable.

For further discussion of the Company's environmental matters, see "Note 9 - Environmental and Legal Matters" in the Notes to Condensed Consolidated Financial Statements.

CRITICAL ACCOUNTING POLICIES

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of net sales and expenses during the reporting period. Actual results could differ from these estimates, and changes in these estimates are recorded when known. The critical accounting policies used by management in the preparation of the Company's condensed consolidated financial statements are those that are important both to the presentation of the Company's financial condition and results of operations and require significant judgments by management with regard to estimates used.

The Company's most critical accounting policies, which require significant judgment or involve complex estimations, are described in the Company's 2021 Annual Report on Form 10-K for the year ended December 31, 2021.

The Company performed its annual goodwill impairment tests as of October 1, 2021. The Company concluded that all reporting units with goodwill have a fair value that exceeds their carrying value, and thus goodwill was not impaired. The Foodservice and Australia reporting units had fair values that exceed their respective carrying values by 25% and 21%, respectively, whereas all other reporting units exceeded by more than 30%. The Foodservice and Australia reporting units had goodwill totaling \$43 million and \$14 million, respectively at June 30, 2022.

In the second quarter of 2022, the Company began the process of divesting its interests in its two folding carton plants in Russia. The Company reviewed the goodwill assigned to these facilities for impairment and recorded a \$12 million non-cash impairment charge thereby reducing the carrying value of goodwill for these facilities to zero. This charge was recorded within Business Combinations, Shutdown and Other Special Charges, and Exit Activities, Net in the Company's Condensed Statements of Operations within its European Paperboard Packaging reporting unit. After the impairment, the carrying amount of the European Paperboard Packaging reporting unit goodwill was \$473 million as of June 30, 2022. Refer to "Note 14 - Impairment and Divestiture of Russian Business" in the Notes to Condensed Consolidated Financial Statements for additional information.

NEW ACCOUNTING STANDARDS

For a discussion of recent accounting pronouncements impacting the Company, see "Note 1 - General Information" in the Notes to Condensed Consolidated Financial Statements.

BUSINESS OUTLOOK

Total capital investment for 2022 is expected to be in the range of \$450 million to \$500 million.

The Company also expects the following in 2022:

- Depreciation and amortization expense of approximately \$560 million, including pension amortization and excluding \$7 million of accelerated depreciation related to exit activities.
- Pension plan contributions between \$10 million and \$20 million, excluding \$6 million reflected as a contribution to the remaining U.S defined benefit plan that effectively utilized the excess balance related to the U.S. defined benefit plan terminated in 2020.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

For a discussion of certain market risks related to the Company, see Part II, "Item 7.4, Quantitative and Qualitative Disclosure about Market Risk", in the Company's 2021 Annual Report on Form 10-K for the year ended December 31, 2021. There have been no significant developments with respect to derivatives or exposure to market risk during the first six months of 2022. For a discussion of the Company's Financial Instruments, Derivatives and Hedging Activities, see the Company's 2021 Annual Report on Form 10-K for the year ended December 31, 2021 and "Management's Discussion and Analysis of Financial Condition and Results of Operations - Financial Condition, Liquidity and Capital Resources"

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company's management has carried out an evaluation, with the participation of its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Company's disclosure controls and procedures pursuant to Rule 13a-15 of the Securities Exchange Act of 1934, as amended. Based upon such evaluation, management has concluded that the Company's disclosure controls and procedures were effective as of June 30, 2022.

Changes in Internal Control over Financial Reporting

There was no change in the Company's internal control over financial reporting that occurred during the fiscal quarter ended June 30, 2022 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II — OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is a party to a number of lawsuits arising in the ordinary conduct of its business. Although the timing and outcome of these lawsuits cannot be predicted with certainty, the Company does not believe that disposition of these lawsuits will have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows. For more information see "Note 9 - Environmental and Legal Matters" in the Notes to Condensed Consolidated Financial Statements.

ITEM 1A. RISK FACTORS

There have been no material changes from the risk factors previously disclosed in the Company's 2021 Annual Report on Form 10-K for the year ended December 31, 2021.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The Company purchases shares of its common stock from time to time pursuant to the 2019 share repurchase program announced on January 28, 2019. Management is authorized to purchase up to \$500 million of the Company's issued and outstanding common stock per the 2019 share repurchase program.

During the second quarter of 2022, the Company purchased shares of its common stock under the 2019 program through a broker in the open market as follows:

Issuer Purchases of Equity Securities

Period (2022)	Total Number of Shares Purchased	age Price Paid or Shares	Total Number of Shares Purchased as Part of the Publicly Announced Plan or Program	Maximum Number of Shares That May Yet Be Purchased Under the Publicly Announced Program ^(a)
April 1, through April 30,	_	\$ _	66,467,310	6,721,793
May 1, through May 31,	43,000	\$ 21.47	66,510,310	6,541,416
June 1, through June 30,	336,000	\$ 20.34	66,846,310	6,769,629
Total	379,000	\$ 20.46		

⁽a) Based on the closing price of GPHC's common stock as of the end of each period

ITEM 4. MINE SAFETY DISCLOSURES

None.

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

GRAPHIC PACKAGING HOLDING COMPANY (Registrant)

EN R. SCHERGER . Scherger	Executive Vice President and Chief Financial Officer (Principal Financial Officer)	July 26, 2022
LES D. LISCHER Lischer	Senior Vice President and Chief Accounting Officer (Principal Accounting Officer)	July 26, 2022

CERTIFICATION

I, Michael P. Doss certify that:

- 1. I have reviewed this Quarterly Report on Form 10-Q of Graphic Packaging Holding Company;
- Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
